Sports Directory

Welcome to the Chippenham Sports Partnership Sports Directory and Exit Routes

Inside, you will find information about the local sports clubs in the Chippenham area. Throughout the year the Chippenham Sports Partnership has run over 52 different events including a variety of competitions, festivals, programmes and staff CPD. This directory will help you to find the information to join local clubs, access local sports clubs should your child wish to participate further.

Our sporting events have provided pupils with experience of working alongside other schools. Pupils also have had the opportunity to experience roles other than participation and during the year are invited to attend many different sporting events as well as leadership events which take place at a local secondary school. These courses equip pupils with the knowledge they need to support sporting events at school and some go on to run lunch clubs and school sports days.

We run programmes that are available to all groups of pupils. These include gifted and talented pupils who are invited to be part of the Talent Team or hard to engage pupils who are invited to be part of the All Active Academy which incorporates the Change4Life objectives. Both programmes involve workshops at a secondary school site and a trip to Bath University.

It continues to be a priority of ours to work alongside staff involved with the planning and delivery of PE and sports and help provide local information on the range of different sports clubs offered to the local sporting community

We have had a very exciting year and enjoyed working with our many local primary schools

Kind regards

Selina, Jessica and Emma

Squash
Dax Mellor
dax@topsquash.co.uk

We would like to take this opportunity to congratulate Dax Mellor on winning the Participation Project of the Year from the Polar Squash Workforce Awards.

Dax has supported the Partnership for many years working alongside our Talent Team and All Active children. The Polar Squash Workforce Awards recognise and celebrate the outstanding commitment and contribution of the squash workforce in making the sport happen.

Dax received a mass of nominations from across the entire squash community with nominations spread over four of the nine award categories. He was eventually chosen as the winner of the Participation Project Award for the work he has done in developing squash within Wiltshire, in particular with the County Junior Programme. The award specifically recognises his outstanding contribution in driving participation, engaging and recruiting players of all ages and growing the sport within the various clubs, public and private facilities and schools across the county.

Nordic Walking - is an enhancement of ordinary walking it uses walking poles to in order to add two major benefits to walking. The use of poles means the upper body muscles are used as well as the legs and the poles help to propel the walker along – this means you work harder than usual yet the support given by the poles makes it feel easier!

Over all a very exciting and fun packed day
